# Together DENTAL

## **Client Overview**

- Together Dental's South Essex locations faced rising call volumes and they had considered hiring additional receptionists.
- Instead, they implemented Ring Smart's AI voice communication solution into one of their locations to handle inbound calls, bookings, and FAQs. This is a pilot run which they are now considering to build out across multiple locations.

# KEY RESULTS WITHIN 60 DAYS

- ✓ £24,000+ annual savings from avoiding new hire
- ✓ 17% increase in bookings due to no missed calls
- ✓ 85% of inbound calls now handled by AI
- ✓ Staff time reallocated to in-practice patient care
- ✓ 24/7 branded voice coverage

# PRACTICE MANAGER TESTIMONIAL

“Since implementing Ring Smart’s solutions to support with our communication workflow between our patients, there has been a serious, noticable benefit to our practice. We’ve seen real savings and better patient experience. The voice sounds natural and professional, and patients are now getting help even after hours. We are proud to be the first practice of our organisation to pilot this product and we are definitely recommening all of our other practices follow suit!”
